G. O. No. 426-10 dt 27-43-98 dt 4th June 1904

Govt sanctioned advances from time to time for the improvement of the city and for the opening of the Basavangudi & Malleswaram extensions In view of the fact that the Municipality was not able to finance the two extensions & also considering that the expenditure incurred thereon was of a special nature as it had its origin in connection with measures for the prevention of the spread of plague by opening roads in the congested parts of the city & suitable building sites at a distance therefrom, Govt directed that the amount of Rs 1,78,283 and odd spent up to the end of 1902-3 be charged to the State Funds, and also sanctioned an annual grant not exceeding a lac of rupees for a period of 5 years to be spent on permanent improvements not falling within the legitimate scope of the obligations of the Municipality. Even now the P W spent

General and Revenue Secretariat

File No. 138 of 1912

Serial No

35 The works enumerated in the memorandum by Messrs Venkatarangaiengar and D.Venkataramiah may be grouped under three heads:-

(a) Improvements and additions to roads and - - drains in the sanctioned extension. Rs 14-875

(b) Completion of the northern extension sanctioned but ordered not to be started until funds are provided. Rs 69,394

(c) The laying out of a new block for ryots to the west of the Railway line. Rs - -

36 The improvements under (a) are shewn in the accompanying statement A and in blue colour on the map of the sanctioned extension with the item numbers of the statement marked thereon for easy identification. These are estimated to cost Rs 14,875. There is no provision for these - - - improvements in the sanctioned estimates but the works seem to be necessary for the proper completion of the lay out.

(b) Work proposed in the new extension shewn in red hatchured lines on the plan is estimated to amount to Rs 69,394. Government have - - advisedly ordered the delaying of this work till all the unbuilt areas marked yellow in the old extension are built over and the extension fully developed. It seems undesirable to add to the - - burdens of the Municipality by opening out - - - -

NOTE—Contn. sheet.

unnecessary wide and long roads without the - - immediate chance of buildings springing up in the locality.

Under (c), no plans and estimates have been prepared for the ryots block which is roughly estimated to cost Rs 9,000 The-place for this - - block is to the west of the Railway line.

37 Regular estimates for the works comprised under the three groups will be first prepared and works executed only after proper sanction to the estimates and provision of funds.

a The works under (a) will be undertaken immediately after sanction to the detailed estimates prepared by the Sanitary Engineer

Works under (b) will be gradually proceeded with if Government are pleased to order the completion of the northern portion and allot a fixed sum of Rs 20,000 each year for the next three years

(c) Detailed plans and estimates for the ryots' block will be submitted if Government - sanction the new lay out.

38 The present practice of sanctioning piece-meal estimates on the understanding that expenditure may be met from the savings of the - - old estimate cannot be encouraged as the sums involved

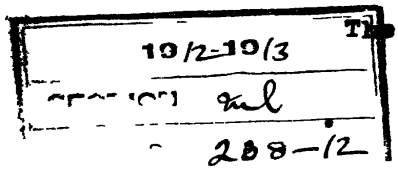
DIARY No. 295



To The President,
City Municipal Council,
Bangalore.

To 2

The Secretary to the Government of
His Highness the Maharaja of Mysore,
General and Revenue Departments,
Bangalore.

Sir,

I have the honor to submit herewith , as called for in your letter No.5298 M1.238-12-1 of the 22nd Instant, a copy of the memorandum furnished by Messrs Venkataramayya and Venkataranga Iyengar, Municipal Councillors of the Malleswaram Extension, showing the works to be executed in two years, so as to complete the laying out of the Malleswaram Extension in its entirety.

2 As the execution of the works mentioned in the said memorandum are all necessary in my opinion, I beg the favour of Government sanction thereto

I have the honor to be
Sir,
Your most obedient servant,

President

128

Memorandum of works to be executed in two years in the Malleswaram Extension, prepared as personally ordered by the Dewan Saib.

Encl to Rd 238-12
Rd 2

FOR THE FIRST YEAR.

1. Southern portion of the Extension between the South end Cross Road and 16th Cross Road, including the "Ryots Block" to the west of the Railway Line.

A-MAIN ROADS.-No. 6 Main Road - The small remaining portion of this road between 7th and 6th cross roads, sanctioned by the Chief Engineer last year, should be formed and completed. All the building sites adjoining this portion viz., ordinary house sites Nos.577 to 583, have been sold and two houses have sprung up already.

No.11 or West End Road - This has been formed between 15th cross road, and a point close to 5th cross road where the sanctioned overhead bridge across the Railway Line, meets the said West End road which remains to be completed between 5th cross road and South End Cross road, and this section also has been already incompletely formed between 4th and 1st Cross roads. All the building sites in this locality viz., Nos.III to 208, have been sold.

No. I or East End Road -This has to be formed and completed between 4th and South End Cross roads. All the sites in this locality viz., 41 to 56, 101 to 110 and 373 to 379 have been sold.

B-Cross Roads. South End Cross Road - This has been nearly completed by the spinning and Weaving Mills between the Subedar Chathram road, and Champaca Avenue Road (Main Road No.2.) The remaining short continuation thereof on the east, which has been excavated between the Champaca Avenue road and the eastern boundary of the Extension, and the similar continuation of it on the west, between the Subedar Chatram road and the West End Road, have to be formed and completed by the Sanitary Engineer.

All the building sites in this locality viz., Nos 75, 541, 544, 545 and 561 to 576, have been sold.

No 4-Cross road - The sewage water of the house to the north of a portion of this road on the west of No 2 Main Conservancy Lane, collects and stagnates to the injury of the public health Therefore masonry drains should be constructed on this section of the road and the sewage should be connected with the nearest man-hole by underground pipes

NO 5 Cross road The short continuation of this road between 5th Main road and West End Road, which has been already incompletely formed, should be properly completed with the needful culvert at the junction of the West End Road The purchasers of the sites adjoining this section viz , Nos 180 to 187 are awaiting its completion for commencing their building operations.

Jacksandra Roads - A short cross road at Jacksandra which is in the limits of this Extension, is needed between 8th Cross road and 7th cross conservancy lane to open out congested parts in this village, as plague breaks out in it almost every year to the danger of the Extension proper Masonry drains are wanted for the road already formed by the Sanitary Engineer in the middle of this village

C-Conservancy lanes - No I Main Conservancy Lane - The remaining short continuations of this between 1st Cross road and South End cross road, between 11th Cross road and abondoned alignment of 12th cross road, and between 15th and 16th cross roads, should be completed with masonry drains etc , as the sewage of the houses which have sprung up, collects and stagnates to the injury of the public health All the sites in these localities viz ,Nos 75, 527 to 530, 541 to 545 and 109 and 110, 365 to 372, 89 to 93 and 109 to 116, have been sold

No 2 The remaining short continuations of this between 1st Cross road and South End Cross road, between 11th cross road and abandoned alignment of 12th Cross road, and between the

abandoned

abandoned alignment of 13th cross road and 14th cross road, should be similarly completed, as the sewage of the houses which have been built already, collects and stagnates to the detriment of the public health. All the building sites in these spots viz.,Nos.523 to 526, 539 to 543, 68, 74, 357 to 364 and 152 to 160 and 168 and 169, have been sold.

No. 5.. The small continuation of this should be formed between 6th cross road and southern boundary of site No.558 which has been sold for building purposes, as well as No.557.

No. 6. The short continuation of this between 7th and 6th cross roads should be formed on account of the houses already built.

No. 7. The short continuation of this between 7th and 6th cross roads should be formed on account of sites Nos. 588 to 592 already sold.

No.1-Cross Conservancy lane:- On the west in the Mahamadan Block this has been already excavated between the Subedar Chatram road and West End Road, and it should be completed with masonry drains etc., on account of the sites Nos.188 to 208 already sold, on which several houses have sprung up. On the east in the Hindu Block, it has to be formed similarly on account of sites Nos. 55,56 and 104 to 108 already sold.

No.2. The small continuations of this have to be formed both on the west and east on account of the sites Nos.152 to 178 49 to 54, 101 to 103 already sold. On the west, several houses have been built.

No. 3. The short continuations of this have likewise to be formed both on the west and east on account of the sites already sold viz.,Nos.121 to 128, 144 to 151, 41 to 48, and 373 to 379. Two houses have already been built on the east.

Conservancy lanes for Jackasandra.- Four short conservancy lanes should be formed for the sanitation of Jackasandra village which is in the limits of this Extension.

The

The Health Officer has written about them to the Sanitary Engineer.

A short conservancy lane between 5th cross road and the graft mango garden, should be formed on account of sites Nos.553 to 556 and 559 and 560 already sold in the mahomadan Block. In this portion two houses have been built already.

II-Ryots' Block.

A-Main Roads. No. 6. Main Road - The continuation of this should be formed and completed on account of ordinary house sites Nos. 1 to 60 already applied for.

No.7. The continuation of this should be formed on account of sites Nos.61 to 121 already applied for. This main road should also be connected with the overhead Railway Briage road for the convenience of cart traffic for the ryots.

No. 8. The continuation of this should be formed on account of sites Nos. 122 to 173 already applied for.

No. 9. The continuation of this should be formed on account of sites Nos.174 to 198 already applied for.

B-Cross roads. South End Cross road - This should be formed on account of sites Nos.199 to 210 already applied for.

No. 2 Cross road - An additional cross road is needed for the convenience of traffic.

C-Conservancy Lanes. Six conservancy lanes have to be formed for the sanitation of the houses to be built in this Ryots' Block.

Note - The Ryots who have been living in temporary sheds on their own fields ever since the outbreak of plague in 1898 in the City, where they were living formerly, are constantly urging the Authorities for the formation of the roads etc., for their requirements. The late Senior Councillor(Dewan Bahadur Mr. Puttanna Chetty) inspected the spot and recommended that the requisite roads etc., should be laid out early.

FOR THE SECOND YEAR.

III-The Northern Portion of the Extension between 16th and 18th Cross roads.

A-Main Roads.

East Park Road - The continuation of this between 16th and 18th Cross roads should be formed on account of ordinary house sites Nos.313 to 320 and 329 to 342 and Bungalow sites Nos.147 and 148, all of which have already been sold for building purposes. The Chief Engineer inspected this Section long ago and ordered the Sanitary Engineer to prepare the necessary estimate for it.

No.3 Main Road :- The continuation of this between 16th and 17th cross roads has already been excavated. It has to be completed properly up to the 18th cross road which is the northern boundary of the Extension, on account of ordinary house sites Nos.305 to 312 and Bungalow sites Nos.117, 118 and 144 already sold for building purposes.

No. 4. Main Road - The continuation of this between 15th cross road and a little beyond the 17th cross road, has been already excavated. It has to be completed up to18th cross road on account of Bungalow sites Nos.111,112,113,127,141,119 and 142 already sold for building purposes.

No. 6-Main Road - The continuation of this between 15th and 18th cross roads has to be formed on account of Bungalow sites Nos.105 to 110, 138, 139, 128 and 140 already disposed of for building purposes.

Nos. 10 and 11 Main Roads.

The continuations of these rwo roads between 15th and 18th cross roads, have to be formed and completed on account of Bungalow sites Nos.93 to 101, 64,65, 122 to 126, 62 and 63 already sold for building purposes.

B-Cross roads -

No.17 Cross road. This road has to be formed between

between 2nd Main road and the western boundary of the Extension, not only on account of the aforesaid ordinary house sites and Bungalow sites, but also for other Bungalow sites Nos.104,134 and 137 sold for building purposes.

No. 18 Cross road:-

This road forms the northern boundary of the Extension. It has to be laid out between the 2nd Main road and the western boundary of the Extension, not only on account of the aforesaid sites, but also for other Bungalow sites Nos. 135 and 136.

C-Conservancy Lanes.

No. 2 Main Conservancy Lane.

The continuation of this between 16th and 18th cross roads has to be formed on account of ordinary house sites Nos. 313 to 328 and 329 to 356 already sold for building purposes. One house has already sprung up and the building operations of another house have commenced.

Main Drains - The continuation of the Main drain adjoining the West Park Road, should be formed up to the culvert in the"Temple Road" (No. 1 Main Road), and the continuation of the Main drain in the 3rd Main Road should be formed up to the tunnel in the 15th Cross Road, to prevent stagnant water and Malaria. The carrying out of these works will complete the late Sanitary Commissioner Col. Smyth's Drainage Scheme.

N O T E.

The execution of the above works will complete the laying out of this Extension in its entirety. This is now indispensably necessary as almost all the building sites have been sold, except in the Ryots' Block in which all the sites have been applied for, but they could not be sold for want of roads, as the Chief Engineer has ordered that building sites for which roads have not been made, should not be sold. After the completion of all the aforesaid works, the Sewage Farm of this

Extension

Extension which is now inconveniently located in close proximity to the inhabited houses, unlike the Sewage Farms of the Southern and Western Extensions and the Old City, will have to be shifted as we have already proposed, to a convenient site below Jakarayanakere, to which should also be diverted the sewage of Sheshadripuram and Old Silledar Lines, which now stagnates here and there, to the injury of the public health.

General and Revenue Secretary's letter No. 8360-Ml.238-12-3 dated the 19th April 1913 calling for the views of the Municipal Council regarding the improvements required in the Malleswaram Extension as proposed in a memo furnished by Messrs. Venkataramaiya and Venkatarangiengar and for suggesting ways and means for financing the same.

Also General and Revenue Secretary's Official Memo No.8363/Ml. 238-12-0 dated the 19th April, 1913, forwarding a copy of his letter No. 8362-Ml. 238-12-0 dated 19th Idem, to the Chief Engineer

Engineer in Mysore forwarding for remarks a copy of the memorandum of improvements referred to in the above and requesting information as to the estimated cost of the works and submission of proposal for financing the scheme in consultation with the President of the City Municipal Council.

Resolution - Proposed by Mr D. Venkataramaiya seconded by Mr. Ramachandra Mudaliar and resolved as follows -

This is apparently a part of the original scheme for the Malleswaram Extension and as such, the Council are respectfully of opinion that the Government may be pleased to order the proposed improvements being considered and carried out in the Sanitary Engineer's Department, the cost being met out of the annual grants made by Government for laying out the Extensions. The Council regret that they are not in a position to finance the scheme

improvements proposed by them to be carried out in that Extension as detailed in their joint memo. After going through the Chief Engineer's note referred to above summing up the importance and urgency of the several proposals, the Committee concurred with the Chief Engineer in the opinion contained in his note and resolved that (1) the completion of the roads and drains as originally planned and sanctioned by Government for that Extension be recommended to Government for being carried out in the first year, (2) that the Ryot's Block be also taken up by the Sanitary Engineer during the first year for being laid out properly, (3) that the completion of the new roads and drains in the northern portion of the Malleswaram Extension be taken up gradually as funds permit when buildings are actually erected, (4) that the question of erecting a septic tank and sewage farm below Jakkarayankere be referred to the Sanitary Engineer for opinion, and (5) that a road 40 feet in width be made to connect Seshadripuram with the Malleswaram Extension. A copy of the Committee's resolution No. II of the 19th February 1914 is herewith forwarded for the information and orders of Government. The statements received with the reference under reply are herewith returned The map was not received in this office.

enquiry & report

Need back from the President & put up

I have the honor to be

Sir,

Your most obedient servant,

Chairman,

City Improvement Committee

Con Gal 238-1/8/7

Extract from the Proceedings of the Bangalore City Improvement Committee at the meeting held on the 19th February 1914.

.....

II. Messrs. S. Venkatarangiengar and D. Venkataramaiya, Municipal Councillors, explained the several improvements proposed by them to be carried out in the Malleswaram Extension as detailed in their joint memo.

The note of the Chief Engineer dated 27th November 1913 summing up the importance and urgency of the several proposals was also read.

The following resolutions were made by the Committee.

Resolution (I) that the Committee concur with the Chief Engineer in the opinion contained in his memo above referred to

(II) that the completion of the several roads, conservancy lanes and drains, as originally planned and sanctioned for this Extension, be recommended to Government for being carried out in the first year,

(III) that what is called the Ryot's Block situated to the west of the Railway Line be also taken up by the Sanitary Engineer during the first year for being laid out properly, as several Ryots now living in isolated sheds on that side have applied for sites in this locality and are said to be eager to build houses therein,

(IV). that the completion of the new roads and drains in the northern portion of the Malleswaram Extension, i.e. to the north of the 15th Cross road be taken up gradually as funds permit when bungalows and houses begin to be built on the numerous unbuilt sites taken up several years ago, and that it would be sufficient for all intents and purposes if the Sanitary Engineer gives the levels for building houses with drains and sewers wherever applications are made for licenses to build and,

(V) that the proposal to arrange for a general septic tank and Sewage Farm below Jakkarayankere for the drainage of Malleswaram and Seshadripuram Extension as well as the locality near the Old Silledar Lines be referred to the Sanitary Engineer for opinion, the present sewage farm near Malleswaram being considered to be too close to dwelling houses.

(VI) that a road 40 feet in width be made to connect Seshadripuram with Malleswaram Extension as they are very close to each other and without direct communication.

Note

New Temple at Chamarajpet - Bangalore

Certain lands in the Hanumanthapura and Bariga Muddanahalli villages of the Bangalore Taluk were taken up for the Mysore State Road in 1882-83 A Temple dedicated to Sri Rameswara originally constructed by one Bakshi Rama Rao was included in the Railway Compound and this was also taken up

and the payment of a
compensation of Rs 6000-8-0
was sanctioned therefor
by Government

2 An adopted son
of the original donor,
and the Archak of the
temple both petitioned
the Dy Commr requesting
that the compensation
amount should be given
to them The Govt, upon
the recommendation of
the Dy Commr, directed
in their Rev. no 6021-7
10-7 N (Limited File)
of the 3rd March 1884, that
the sum sanctioned for

the temple should
be held in deposit until
proper security is
given by the parties
concerned for constructing
another temple on a
suitable site to be
selected by them and
approved by the Dy Commr.,
the materials appertaining
to the temple being either
sold ~~by auction~~ for a
reasonable price to the
party constructing the
temple or ~~to be disposed~~
put to sale in auction

3 The parties were
directed to select the
site for constructing

the Temple, but as
nothing was done by
them, the amount was
refunded and drawn
from the Treasury and
deposited in Govt Savings
Bank. in the name of the Dy Commr Pannigalore District
Subsequently
the owner selected
certain sites in the City
& the Vice President
after inspection reported
that none of the sites
suited the purpose.
He selected 12 sites
in the Western Extension
of the City
& the City Improvement
Committee in their Proceedings
resolved

(5)

recorded that the commutation should be made over to the Inspector-Superintendent from the receipt being done by him in the matter of the Constitution of the Temple, and accordingly recommended to Government that commutation was sanctioned in Govt. Order No 21767-9 L.S. 440-92 dated 30th June 1893

5. The late Inspector-Superintendent received the sum of Rs (4625-4-5) x on the Government Savings Bank of the Banagalore Debit in this account, on the 29th

(Cheque file)

Rs	as	p	
4004	8	4	Commutation amount-
620	12	1	Probably the interest-

4625-4-5

24th July 1893 was arranged

to for the construction of the

Temples on the sites selected

in the Western Extension, now

known as "Chamarajpet". The

work was started in 1894 by Mr.

D Kuppuswami Naidu, the

then Assistant Commr.

of the Bangalore District, under

the orders of the Mysore Superintendent

6. One Raja Moodliar,

Contractor did the foundation

work of the temple-properties and

collected the few materials for

further work Mr. Kuppuswami

Naidu recommended the

advance of Rs 400 to the said Mr

the Contractor on the works

done and materials collected

by him

Vide Dockets no 138/894

dated 4th September 18

up to date. The Municipal Superintendent accordingly passed him the advance on the 19th September 1894 The Contractor then gave up the work and went away. His whereabouts are not known.

7 That, Mr Commissioner gave the simple work on Contract to one Ramaswami and to another Subbanna (the present claimant) They began with the construction of the Compound wall, and after showing some progress in the work, received an advance of Rs (500) on the 12th November 1896 to Ramaswami

Ramaswamy Iyer terminated
his connection with the
Contract- work and entrusted
everything to Subbarao,
the other Contractor,
× ×
encouraging him to receive
the full amount of the
work in connection with
the Compound wall, which
had been completed on
the meanwhile A measurement-
was taken by the Surveyor
Srinivasa Hanumiah and
Balakrishna Rao and
a bill for Rs 1601-13-2
was submitted by them, after
deducting the cost of the
old materials (procured by
Collected them
by him)

P
Vide his petition to
the Sanitary Engi-
- dated 26 Nov
1898

Rs 1600 earned

Collected by the Executive
Contractor Raiya Nanabhai,
work secured by these Contractors
The bill was submitted for
Payment was accordingly
made to Contractor —
Submission, deducting
the advance of Rs (500)
passed on the 12th November
1896
Thus, the completed work
work was finally submitted
and paid for —

8. Submission next door
began
started the work of Execu-
-tive to the temple proper
and completed since of
the stones. He also collected
some materials for further
work

work the items of work

2 executed by him and the details of the materials lying on the temple premises & have been noted on the measurement-book now disowned from the Chief Engineer. He was given an advance of Rs (500) for these works on the 19th May 1900.

Q

9 As the work was being done under the direct- orders of the late Surgeon-Superintendent- it is not understood why the work was not finished on to completion.

10. A duty previous to his retirement, i e on the 15th April 1901, was summoned by the

directed the Surveyor
General Karachi
Quetta to submit a
measurement bills for
the works done by contractors
Sultanna (containing
the component with the
accounts of which have
been finally settled)
in view to their final adjust-
- ment. The former accordingly
submitted the bills for
Rs. 3,49-2-3, with a Report
accompanying the same.
The Executive Engineer
proceeded on tour on the
16th April 1901, examining
the new Imprest of

R

of Rs 3 4 9 - 2 :- 3 as per

bill submitted by —

Kumbakonam municipality.

But the Contractor did

not accept the rates allowed

by Kumbakonam municipality,

and so, no payment was ever been

made to him through the orders

were passed by our Executive

-Vaseenachariar on the 16th

April 1909

11 The Contractor

petitioned this office on the

17th of September 1909, demanding

payment for the works executed

by him, and stating that

the rates allowed by Kumbako-

-nam municipality were too low and

(Kumbakonam municipality)

Deputy Secretary's Remarks

Submitted to the Dewan

Under the circumstances explained, I think the Contractor Subbannah is now entitled to the sum of Rs 1221-4-10, in accordance with the Executive Engineer's Estimate in final adjustment of all the work done by him and including the cost of the materials now on the spot. This amount may be paid and the Contractor's account settled.

The financial result is

This way settling a Manager work will not do. If S. Chandra had the work done without proper rates - the officers should watch their only authority who know all the details & the nature of work & the cost. With the C.E. was under the circumstances very appropriate - The Dy Comr of the & the Dy Secy may either Examine the work & settle the claim

that we shall have spent Rs 4921-4-10 for the work already done and there is left a sum of Rs 611 4-4 for continuing the work of the temple proper The original amount obtained as compensation on account of this temple was Rs 4994-8-4 and a nearly equivalent sum of Rs 4921-4-10 has had to be spent for the work already done The sum of Rs 611-12-4 still left in the Savings Bank represents the interest on the original amount

21 It was perhaps unnecessary to have spent so much as Rs 1600/- on the compound wall the work has however been executed in a substantial manner, and nothing need be said about it

22 After the settlement

of the Contractor's claim, the next thing to be done is to get a careful plan and Estimate prepared for the proposed new temple I have made all possible enquiries, but have not been able to find any plan already prepared for the work A plan and Estimate have now to be newly prepared and as this had better be prepared by professional hands, I would respectfully suggest that the work be entrusted to Mr. Venkatachar Executive Engineer, with the permission of the Chief Engineer that Officer may be asked to consult, in the preparation of the plan, and in the selection of the type of building, with Mr M S Narayana Rao, Deputy Commissioner, and with Mr E R Sobrajee, Comptroller to Government

the cost should be moderate, and yet the structure should appear pretty so as to be in keeping with the surroundings. After the plan and Estimate are approved, it may be decided whether the execution of the work should be carried out by the Public works Department, or by the Deputy Commissioner

2. As regards funds, the amount of Rs 1611-14-4 which will be left in the Savings Bank after paying the Contractor, will certainly not be sufficient for the proposed structure. The Deputy Commissioner may be asked to collect voluntary contributions from devotees, and some Govt help may also have to be given. Subd to the Dewan

He has petition
dated 21st August
1903, Ramanarthanyabba,
the Sculptor, says that
the pedestals referred
to above are nearing

completion and will be ready within the time agreed to by him in regard to the idol of Basava, the petitioner says that before receiving orders to stop the work, he had pending further instructions in the matter sent a rough image thereof and that the work is now progressing. He prays for early orders for completing this work also.

3. The balance at the credit of the Temple Fund on the 11th June 1901 was Rs 162-4-11. This is exclusive of the interest for 1902-3 which is now being credited at the request of the Dy Secretary, Rao Saheb D. Shama Rao, Dy Superintendent Revenue Survey, has sent two estimates

* his letter dated 11th June '02.

* vide correspondence ending with the documents noted above

are for Rs 646 for
constructing the
mahadwara of the
temple and the other
for Rs 705 for a Sopuram.
These estimates were
prepared by Maisuru
Ranjundappa, who
built the temple.
W. D. Shamarao in
forwarding a rough
sketch of the Sopuram
with the above estimates
states that as the Sopuram
work is a technical
one, the estimate thereon
should be examined
by responsible P. W.
officers and the present
foundation of the walls
as tested by the same
officers to see if it can
bear the weight of the
superstructure.
submitted
28/8/03

Note continued

The Dewan visited the new temple in February 1904, and he was pleased to observe as follows —

"I would invite the earnest attention of the Deputy Secretary to the completion of these deserable buildings"

In July 1904, the pedestals of Parvathi Siva and Vigneswara and the idol of Basava were all prepared by by Hanumantappa and delivered by him, and the sculptor was paid Rs 50/-, which together with Rs 50/- advanced to him on a former occasion, amounts to Rs 100/- and Rs 25/- more yet remains due to him as agreed to by him for the works.

W

On the 9th October 1904, a public meeting was held in the temple, and in which a committee was appointed with Messrs H S Chandrasekhara Iyer & S Ramaswamier, Advocate, Pandit Veeraswara Sastri, and Kothe Venkataramanaiah and Gowdegere Venkataramanachi and 70 others, with Mr. T Ramaiya as President MR Appajappa as Treasurer and Mr Chowdiah Subbarao as Secretary to manage the affairs of the institution

(34)

A copy of the proceedings of the Committee has been submitted by its President from which it is observed that the Committee pray

(1) that the new temple be named "Rameswara" temple

(2) that 3 rooms be added to the south of the present building and one for "Sakkanasa", and the other two for Garbhagudies for Parvati and Ganesa, and that Gopura and Mahadwara be constructed therefor

(3) that 2 more rooms or anthanams be constructed, one to the east, and the other to the west of the present building, for a Vishnu image also being installed, in view to make the temple more popular and its compound serviceable for all auspicious and ceremonial occasions

(4) that the above works estimated to cost Rs 2689-9-4 as per estimate submitted be undertaken by Govt, and executed by the agency of the PW Department a the amount placed at their disposal for the said execution

(5) that after the completion of the said works, the Pratishte a installation ceremonies be done by Govt and paid for by them themselves, undertaking to bear the people

estimated cost Rs 1600/-

03

the expenses connected with fodder and processions, coming about Rs 1000-, from the subscriptions to be raised for the purpose.

(6) that all the expenditure already incurred and to be hereafter incurred, with the exception of the last mentioned item of Rs 1000- be all borne by Govt, and the amount of compensation obtained from the Railway left undisturbed for the interest accruing thereon being utilised for the maintenance of the temple

and (7) that the marginally noted establishment be entertained for the maintenance of the temple, and that with a view to reduce the maintenance charges, as far as possible the puja be conducted according to the Vaidika Agama, so that only one shelter may perform puja in both the Vaishnava and the Saiva temples

1 One Archaka — Rs 6-
2 Nandyalu charges } Rs 4- for both the temples
3 Desparadhana Charges - Rs 3-
4 Camphor — Rs 1-
5 Mahabhishekam — Rs 6-
Total Rs 20-

Muzrai Secretary's Remarks

The Circumstances of this temple are described in the preceding pages. The original sum of Rs 4,004-8-4 received as compensation from Govt from the Railway Company on account of the removal of the temple from the Railway

Sanctioned as proposed in this Pl No 6321-7 dated 3rd March 1894 vide Govt Pl No 440 of 1892-93.

premises at Bangalore together with Savings Bank interest accruing thereon from time to time has all been spent under the orders of Govt in the construction of a temple building at Chamarajpet and a big and strong compound wall There is only a sum of Rs 132 now in the Savings Bank out of which small payments to the extent of Rs 70/- have yet to be made

A largely attended meeting of the municipal residents of Chamarajpet and other parts of the Bangalore city met in the new temple premises in October last and appointed a Committee with Mr N Ramayya Assistant Secretary, as President The proposals of the committee for the completion of the building and for the consecration of the necessary deities and their future worship are given in abstract in pages 34 and 35 of this Note

The proposals are for the construction of seven additional rooms, viz, one for the Garbhagudi, two for the consecration of Parvati and Ganesa and one for a Vishnu idol, for the construction of small gopuram on the Garbhagudi and for a mahadwara or main entrance to the temple The necessity for these additions has been explained in Ramayyas letter and I am also of the considered opinion that they are all required, so that

the building may be suitable to the important locality in which it is situated and also be useful to the resident population. The estimate for Rs 3,689-9-4 prepared by Mr Harpur* Srinivasa Rao, Engineer of the Bombay Presidency, appears to be suitable and, I think, the amount may be sanctioned from the State Grant of this year, the balance of which now stands at Rs 5,500/-. The execution of the work may be entrusted to Mr K Ramayya who will see the work carefully and cheaply carried out under his personal supervision. The amount, if sanctioned, will be drawn and placed in the Savings Bank in my name and given out in instalments on measurement bills as the work proceeds. Mr K Ramayya is prepared to see the work carried out within the next 2 or 3 months, and if this is done, the consecration of the shrine may be made in the month of Chaitra &c. I beg to bring to notice that in the case of the new Vishnu temple at Mallawaram, grants aggregating nearly Rs 2,000/- were sanctioned from the State Grant during the past 2 years. The case of the Chennayya

* He was here some time back and took much interest in public improvements

temple is stronger

The meeting have proposed also that the Prabeshte should be undertaken by Government at a cost of Rs 400/- This seems also fair as the Govt, having taken up the compensation amount, seem to be bound not only to construct a new temple but to consecrate God and revive puja therein A sum of Rs 400/- may accordingly be sanctioned for this purpose from the State Grant. The promise of the Committee that they will collect subscriptions to the extent of Rs 1000/- for conducting feasts etc during the Prabeshte ceremony may be accepted

The next important thing question connected with this institution is the providing for its up-keep in the future The sum of Rs 20/- per mensem suggested by the meeting for the expenses of Establishment Pooja etc is not too much for a costly place like Bangalore and it is not desirable to leave the maintenance of the institution to the uncertain income from local subscriptions I would therefore very respectfully beg that this monthly amount of Rs 20/- may be kindly sanctioned from State

be of opinion that they are all required, so that

funds as an additional grant to the
current Budget

The reason why I have ventured to
recommend such liberal treatment
to this temple is due to the fact that
its circumstances are very peculiar Govt
took into their own hands the large sum
of Rs 4,000/- derived as compensation for
the removal of the old temple from the
Railway premises and thus become bound
to revive the temple and its puja elsewhere
Having built the new temple in an important
and central locality in a flourishing
suburb of the Bangalore City, it became
necessary to construct the buildings in a
suitable manner according to modern
ideas and therefore much cost has had to be
incurred, and further expenditure is required
to complete the work and to bring the
institution to a permanent working condition
so as to fulfil the obligation undertaken
by Govt The special treatment to be
accorded to this case need not be taken
as a precedent in dealing with other cases
Submitted to the Dewan,
through the II Councillor

12-04

Illegible
9/12/04

Orders were issued
consequent on the
following points.—

(1) Sanction given
No 2689-9-4 dated
the 22nd Sept. 1904
& additional rooms,
of a small dispensary
on the Jackhangadi
and of a Maharwara,

(2) Rs given Rs 400 to meet
the Municipal expenses.

(3) A monthly grant
of Rs 20 for the
expenses of the
establishment,
Pattewar &c.

Out of the annual
Rs 400 & odd sanctioned
no compensation
for the removal.
Of the Temples, given
the original estimates
probably that they are all required, so that

the Railway Station
a distance of one
Rs 182 to left there
is yet a small
sum Rs 70 yet due
from Kistnagiri there
is no money left
at the credit of the
temples and entire
the Govt is pleased
to sanction the
requisite amount
when it is ascertained
that the temples
cannot pay it to Govt
in one sum in the
manner (state
first two items)
the repairing cannot
commence until
that sum is received
the Presidency there
is still a balance
of Rs 5500 to
be paid in
No 3 is a permanent
charge and may
also be sanctioned

I grant I agree with the Duke that the maintenance of our institutions cannot be left to uncertain grants & contributions, but is enough if the Committee names the whole sum & apportion the extent of Russia to pursue & leave to each of the Protestant governments to raise their quota in the way most suitable to their own habits. Special cases may be treated as they arise & a precedent established as to the

Kingston hospital staff, upon itself the responsibility of constructing the temporary and unknown that hospital to see that the work is completed and that the institution is placed in an efficient working order.

Yours truly

24.12.26

I do not think that the Government should undertake the obligation to conduct a matter a temporary at a distributable cost when it returned this money hand in compensation in the own hands. The estimate requires revision as pointed out below

(1) There need be no fear and expenditure with South Africa and Rhodesia for Gambia Gambia - Sierra Leone may be entered into but words which may be enclosed as shown in the plan -

(2) One room might be added to the west or east for visitors -

(3) Measures to be taken for another entrance in the west if regarded as needed in the opinion of the building it may at all events be seen

(4) Measures must be taken also for another convenient office

Should be glad to have the estimate revised & submitted for orders early

25 Nov 04

The above views of the Deivan were communicated to the President of the managing committee of the Temple who submits a revised estimates for Rs 1306 in accordance with the above views.

vide the office No 2373 2/7-1-05 LC

vide the Letter dt 18/1/05

The Estimate consists of the following items :—

		Estimated Cost
I	For Constructing a room on the Western side of the temple for Vishnu Vagahana	Rs 310
II	do a Mandapam at the Eastern side of the temple	297
III	do rooms inside the temple (Parkon walls, doors &c	199
III	for building a small Vimana over the Garba Gudi of the pattern built for the Malleswaram temple	500
	Total Rs	1306/-

He adds that though the construction of Mahadwara and Gopura may be deferred for another year, it seems important that a small Vimana should be constructed at once to give

Ra

building the appearance of a Temple and the Citizens pray that this and the small Verandah to the East may be kindly sanctioned.

Submitted

Rs
19/1/05

Muzrai Secretary's remarks —

The estimate has now been reduced from Rs 2689 to Rs, 1306 and the revised estimate may, it is submitted, be sanctioned Application has even now been made for a small Gopuram over the Garbhagudi The Construction of a Gopuram of a very small size and with only one Kalasa may, I humbly beg to submit, be sanctioned as it will give

to the building ~~temple, whereas now the building~~ has the appearance of a dwelling house. Its immediate con-struction is desirable because, after the idol is placed in the temple and sanctified, it will be difficult to carry on work over the sanctified Garbhagudi.

The Mahadwaram is not provided for in the revised estimate. It may be left to be constructed next year, it being a necessary adjunct to a temple.

The grant of a sum of Rs 400 as asked for, for the 'Prathishte ceremonies, and a monthly grant of Rs 20/- for establishment and Paditara &c, are points for orders.

48

It came to my notice only yesterday that the old Rameswara temple was endowed with a small extent of land as inam and that the Archak of that temple is still enjoying it. Enquiries will be made on the point.

2-3/29-56
7/4/05 Y

The President of the temple committee now reports that on an enamenation of the temple building it was found that the foundation and walls of the present Garbhagudi cannot stand the weight of the Gopura (Vimana) proposed to be built thereon and that the raising of partition walls within the temple would not only give a cramped appearance and obstruct light and ventilation but would also curtail the space now available for gatherings on important and festive occasions It is therefore reported that some of the Residents of the city, have therefore resolved upon adding three rooms to the south of the present building according to the original plan - Mr H Ramiah (President of the temple Committee) solicits sanction to the above said addition on condition that the cost of the improvement & additions does not exceed the amount of Rs 1306/- sanctioned by Government

Letter no 728 dated 7/4/05 Z

50

He adds that ~~the~~ during his inspection of Chamarajpet last month, the Dewan was pleased to say that he had no objection to the additions proposed, — provided the cost does not exceed the amount sanctioned by Govt.

II. Mr H Ramaya in another communication Submits two Estimates one for Rs 1235/- for the Construction of a Kitchen and

@ no 9 d/ 11/11/05

Muzrai Secretariat. | File No of 190

a store room and another for Rs 999 for constructing a "Mahadwara" for the Temple without which, the Temple compound serves as a thoroughfare for the public and cattle, ~~who often commit nuisance in the compound;~~ No Upanana or Gopura is provided in the Estimate for the Mahadwara as there are already two Towers on the Temple for the completion of which a lump sum grant of Rs 500/- is asked for.

~~Submitted for orders~~

RS

Muzrai Secretary's Remarks.

The Govt were pleased to sanction a sum of Rs 1,206 towards the completion of this temple building from the State Grant of last year. The Committee also collected a considerable sum of Rs [illegible] private individuals and not only completed

Mudra Secretariat. | File No of 190

completed the main temple but also put up two fine Gopurams which have added to the beauty of the temple and of that part of the City. With the aid of the monthly cash grant graciously sanctioned by His Highness, the daily Puja and other services are being performed in a very efficient manner and the temple attracts large numbers of devotees both day and night.

Under these circumstances, it seems desirable that the helping hand of the Govt should be extended to this temple a little more. All the works mentioned in the President's application are necessary ones, but the construction of rooms for the kitchen and stores and the completion of the works connected with the Gopurams seem urgent and the amounts of the Estimates therefor, viz. ₹1,235 and ~~₹999~~ Rs 500 (total ~~₹2,234~~ 1735) seem deserving of Govt sanction from the State Grant. Orders are solicited on the point. The Mahadwara must be put off to a future date. The present application for Govt aid is made because it is not possible for the Committee to raise further subscriptions from the public just now as they paid contributions

Rec'd 14/12/05.

The present application for Rs 2734 (Rs 500 for the completion of Kapparam No 1235 for construction of a kitchen and store-room and Rs 999 for Nakadaram) Except the last item the Dy recommends the grant of the funds. Since the temple and Muzrai institution consists and pays and no grants or subscriptions can be raised on the spot myself I would

Muzrai Secretariat. | File No of 190

suggested that the whole amount of the subscription contributed on for all the objects of saving should be spread over a series of years. I think it is time that the committees should understand to what extent Government help could be expected.

If the IInd Collector has no objection I would confine the two items mentioned by the Secretary Local Committee except a little more for annual contributions for the Mahabaleshwar which we should a necessary item for which Govt may grant this aid next year — for the Amalner Committee we have received contributions Rupees 500 for Sabarmati Ashram 1235 for Kalubai Sharmashram which would be suitably helped — Thus no objection; if need be may pay Rs 17.XII.05 Read 19 12 05

Madras Secretariat. | File No. of 190

(Note Continued)

Orders as noted in the preceding page sanctioning an additional grant of Rs 1735 for completing the Gopuram work and for the construction of rooms for the kitchen & stores were issued in Govt. Pro: no 2900-02 dy 11th January 1906. Mr H Ramayya has drawn this amount as advances Rs 500 on the 17th January 1906, Rs 750 on the 12th March 1906 & the 3rd advance of Rs 485 on 2nd May 1906.

Letter Rep no 2452 dy 14-11-06

Now Mr H Ramayyar reports that the lump sum Estimate for Rs 500 applied for by him & sanctioned by Govt. for the completion of the Gopuram was very low & did not include the cost of completing the frontage

File No of 190 | Mustaq Secretariat.

of the northern & eastern portions of the Temple which were omitted by an oversight, that he tried his best to complete the work within the sanctioned amount, that the work was executed under his personal supervision & strictest economy observed that finally the amount actually incurred for the completion of the Gopuram came to Rs 679-1-0 as detailed below: —

Sand 30 cart loads	Rs 15-0-0
Chunam	48-13-6
Bricks	10-0-0
Coolly	588-2-6
Sundry articles such as iron bars, turmeric &c	17-1-0
	Rs 679-1-0

He solicits payment of the excess Rs 179-1-0

(2) Out of Rs 1235/- sanctioned for the Construction of a Kitchen & Store Room, Sri H Ramanja reports

Mysore Secretariat. | File No. of 190

that Rs 620 alone were obliged for the work and the balance Rs 615 was made available for the construction of a Pucka Spacious Lecture Hall the necessity for which was badly felt & which could be useful for various purposes such as providing accommodation in the Temple for the hundreds of native ladies & children congregating on important festivals & other days to hear Puranas & Harikathas & on occasions of Mangalarthi. This Hall is estimated to cost Rs 4053, towards which Mr H Ramanya has been raising Contributions in the shape of — materials & labour & requests that Govt may be kind enough

File No of 190 | Muzrai Secretariat.

to sanction a sum of Rs 2000/-

Muzrai Secretary's Remarks.

The excess of Rs. 179-1-0 incurred in connection with the Gopurams may be sanctioned from the State Grant. The Gopurams are very nicely built and decorated and the sum of Rs. 679-1-0 spent on that is a very modest amount.

Mr. H. Ramiah asks for contribution from Government of Rs. 2000/- on account of a big Hall which he is constructing in the compound at an estimated cost of Rs. 4050. He has utilized towards this building a sum of Rs. 610/- saved from the grant made for the kitchen. The Hall is now very near its completion and it would no doubt supply a really much felt want. The temple is used by large numbers of devotees--male and female-- and [illegible] additional accommodation provided for holding

* Exclusive of the cost of the verandas which will be constructed later on at a cost of about Rs. 600/-

Area Secretariat.	File No of 190

Utsavams, Harikathas and reciting Puraranas &ca is very necessary.

I beg respectfully to submit therefore that the amounts asked for namely Rs. 179-1-0 for Gopurams and Rs. 2000/- on account of the Hall may be sanctioned from the State Grant of this year. The available balance out of this years' grant is Rs. ~~5367-3-2~~ 5367-9-2 at present.

This may be sanctioned. The hall that is being built in the Temple premises is a very decent one and is intended to accommodate Hindu ladies who resort thither to listen to puranas & Harikathas

File No of 190 | Musrat Secretariat.

In the interests of the spiritual welfare of the Hindu ladies of Chamrajpet I would recommend the large grant applied for by Mutt Ramiah being sanctd. W Whitefield 21/11/06 20/11/06
